

## Complete Transcription for Beginners

### Private Live Lesson

During the online private lesson, you will be guided through the course live and will be able to ask questions as we move along. This is a live session of approximately 40 minutes and you will receive all course material including the training manual, templates etc. You may also request a recording of the lesson.

#### REQUIREMENTS FOR LIVE LESSONS

Please note that you will need to download the ezTalks app on your phone free from the Google Play store in order to interact fully during the lesson (the tutor is able to see and hear you live).

Alternatively, you can participate in the lesson via the ezTalks website on your browser but you will not be able to speak live. You will however, be able to ask questions via a live chat function. (You can see and hear the tutor but the tutor cannot see or hear you).
